NOTE, ONLY 565,000 Jews in Germany on 30 March 1933. This was before Adolf Hitler helped them immigrate to Palestine all expenses paid, which he later stopped when he found out what brutalities were done to the Palestinians, and that they were driven off their homes and land. No Jews were ever gassed, but how could have Millions been gassed when they were fleeing Germany left and right as Adolf Hitler forbid them their underhanded culture and usury?! This is an apology for their bad behavior but too little, too late and only deceptive damage control after they had declared world wide economic war on Germany. Germany is the victim!
