The Eternal 25 Points of Governance

As established on 24 February 1920 by Adolf Hitler
1. We demand the unification of all Germans in the Greater Germany on the basis of the right of self-determination of peoples. [*German land with German people was torn by the Allies from proper Germany.]

2. We demand equality of rights for the German people in respect to the other nations; abrogation of the peace treaties of Versailles and St. Germain. [*Germans were abused, robbed and gagged by the treaty. Further they were seriously disadvantaged in human rights.]

3. We demand land and territory (colonies) for the sustenance of our people, and colonization for our surplus population. [*The German colonies were stolen by the Allies.]
4. Only German Volk can be citizens. German Volk are only people of German blood, without consideration of creed. Consequently, no Jew can be of the German Volk.

5. Whoever has no citizenship is to be able to live in Germany only as a guest and must be under the authority of legislation for foreigners.

6. The right to determine matters concerning leadership and laws belongs only to the citizen. Therefore we demand that every public office, of any sort whatsoever, whether in the Reich, the county or municipality, be filled only by citizens. We combat the corrupting parliamentary economy of office-holding only according to party inclinations without consideration of character or abilities.
7. We demand that the state be charged first with providing the opportunity for employment and a decent livelihood and way of life for the citizens. If it is impossible to sustain the total population of the State, then the members of foreign nations (non-citizens) are to be expelled from the Reich.

8. Any further immigration of non-Germans is to be prevented. We demand that all non-Germans, who have immigrated to Germany since the 2 August 1914 [*due to the war] be forced immediately to leave the Reich.

9. All citizens must have equal rights and obligations.
10. The first obligation of every citizen must be to contribute both mentally or physically. The activity of individuals is not to counteract the interests of universality, but must have its result within the framework of the whole for the benefit of all. Consequently we demand:

11. Abolition of income without work or effort. [*In other words, no usury and no speculation, betting, gambling, etc.*]-Abolishing of interest slavery. [*Here dishonest translators have called it “rent” slavery.]

12. In consideration of the monstrous sacrifice in property and blood that each war demands of the people, personal enrichment through war must be designated as a crime against the people. Therefore we demand the total confiscation of all war profits. [*War for profit-a Jewish strategy!*]
13. We demand to take into public ownership (previously) established businesses (trusts).

14. We demand profit sharing by large businesses.

15. We demand a generous expansion of the provisions for the aged.
16. We demand the creation of a healthy middle class and its conservation, immediate communalization of the large shopping conglomerates and them being leased at low cost to small firms, the utmost consideration of all small firms in contracts with the State, provinces and communities.

17. We demand a land reform suitable to our national needs, provision of a law for the gratuitous expropriation of land (land which has been illegally acquired, etc.) for public purposes. Abolition of taxes on land and prevention of all speculation in land.
18. We demand a ruthless fight against those whose activity is injurious to the community. Treasonous criminals committing crimes against the citizens, usurers, racketeers, and so forth, are to be punished with death, without consideration of confession or race.

19. We demand substitution of a German common law in place of the Roman Law serving a materialistic world-order.
20. The state is to be responsible for a fundamental expansion of our whole national education program, to enable every capable and industrious German to obtain higher education and subsequently advancement into leading positions. The curriculum of all educational institutions are to conform with the demands of practical life. The comprehension of the concept of the State must be accomplished by the school (citizenship education) as early as the beginning of understanding. We demand the education at the expense of the State of gifted children of poor parents without consideration of their class or professions.
21. The State is responsible for the elevation of national health by a program protecting the mother and child, by outlawing child-labor, by the encouragement of physical fitness, by means of the legal establishment of a gymnastic and sport obligation, by the utmost support of all organizations concerned with the physical instruction of the young.

22. We demand abolition of the mercenary troops and formation of a national army.
23. We demand legal prosecution of deliberate political lies and their promulgation through the press. In order to enable the provision of a German press, we demand, that: a. All editors / writers and employees of the newspapers appearing in the German language be members of the German race: b. Non-German newspapers be required to have the express permission of the State to be published. They may not be printed in the German language: c. Non-Germans are forbidden by law any financial involvement in German newspapers, or any influence on them, and as punishment for violations follow the closing of such a publication as well as the immediate expulsion from the Reich of the non-Germans involved. Newspapers which are counter to the general good are to be forbidden. We demand legal prosecution against a direction of art and literature that has a destructive influence on our national life, and the closure of events opposing the above made demands.
24. We demand freedom of religion for all denominations within the state so long as they do not endanger the state or oppose the moral and ethical senses of the Germanic race. The Party as such advocates the standpoint of a positive Christianity without binding itself confessional to any one denomination. It combats the Jewish-materialistic spirit within and around us, and is convinced that a lasting recovery of our nation can only succeed on the framework of: common good before self interest.
25. For the execution of all of this we demand: The formation of a strong central power in the Reich. Absolute authority of the political central parliament over the whole Reich and its organizations in general. The forming of Standards chambers and Professional Associations for the implementation of the framework laws passed in each state of the Reich. The leaders of the Party promise, if necessary by sacrificing their own lives, to support unconditionally the implementation of the points set forth above.
