TELL OUR PEOPLE! Translation of text on German text video

It's a historical fact, that we (Americans) have had relatively more wars in our short national history than the Germans had in two thousand years. We conquered this large and rich land from the Atlantic to the Pacific ocean, from the Gulf of Mexico to Canada (an area twenty times the size of Germany), took everything we wanted, unpunished, and annihilated the native inhabitants with hunger, whisky, and illnesses.

Tell our people, that the Germans never had the intention to conquer the world, as General G. C. Marshall from the Nuernberg tribunals claimed.

Tell our people, that the Germans wanted to create the United Nations of Europe, just like our Lincoln preserved the United States in a bloody civil war, and how Churchill would like to see that now after he accomplished the destruction of half of Europe as the spearhead.

Tell our people, that the Germans never meddled into our business when we lead our wars of conquest against the Indians, Spain, Mexico, and so on.

Tell our people that the Germans were never our enemies, but our friends and benefactors through all of our history, and that we could not be the greatest and richest nation without the engagement, blood, and sweat of the Germans; and that, furthermore, every third American is of German descent.

Tell our people that the Germans never wanted to have a war with us, but that it was us who went forth twice to destroy them because our statesmen were afraid that German ingenuity and diligence would conquer the world in a peaceful way.

Tell our people that we were deceived into this second World War by Roosevelt's "elegant detour" via Japan and not for ideological reasons, but because the reason was greed and power politics, just like we are now incited against Russia,..

Tell our people... what Oliver Lyttleton said on June 20, 1944, before the American Chamber of Commerce: "Japan was provoked to attack the United States at Pearl Harbor. It is a travesty of history to claim that the United States was forced into war!"...

Tell our people... the atrocities our troops have committed in the Heart of Europe; how our bombers ruthlessly destroyed everything and annihilated Hundreds of Thousands of Civilian lives [the currently established number is 1,000,000], how callous soldiers and officers stole and raped, [ca. 500,0000 women and girls raped in US zone], how our government led a systematic hunger campaign [murdered 1 Million German prisoners of war in the U.S. zone and
the Allies all together murdered 7 Millions Civilians in all of Germany], and how Millions of innocent Germans [ca. 20 Million] were driven from their ancestral homeland of hundreds of years and into a death of freezing and starving [3 Million killed or died during expulsion.]

Tell our people, that the burden of responsibility, the chaotic conditions, and the indescribable hardship all over the earth rests on our consciousness, because with historically proven brutality we have wreaked devastation and furthered Bolshevism, which is now a threat to the whole world. Without our interference, Europe would long have had order and peace.

Tell our people, how hypocritical and selfish they are, when based on the Monroe doctrine, we forbid non-Americans to intervene in questions of the Western Hemisphere, whilst we, due to our power position, force ourselves into the affairs of all other countries and continents.

Tell our people, that we, now that we have destroyed the stronghold of the Christian Occident, the politically most important stabilizing factor in the world, and obliterated the most educated and cultivated nation on the earth by driving a dagger through the heart of Europe, must take the heaviest burden of responsibility upon ourselves for what Germany stood for, in its whole glorious history of the last thousand years.

Germany's population is half the size of ours. These 70 Million Germans were crammed into an area not larger than Michigan, Indiana and Ohio, in other words 133,000 sq. km. Imagine trying to stuff half of the U.S. population into these three states, after all their cities, industrial complexes, railroad and production facilities have been destroyed!

Do you now recognize the magnitude of guilt that our government is carrying?

Lord, do not forgive them because they know exactly what they are doing!
